# Goals

Change the world into a  
better place

Fight climate change

# My Club: The Nature Savers

# Problems

## What problems do we face these days in nature?

# Trash on beaches

- Flowing into oceans
- Hurting animals lives

# Dry Lands

- Less water
- Hotter weather
- Hurting animals lives

# Forest Fire

- Hotter weather making fire
- Hurting animals lives
- Destroying forests

# What gas does to us

Hurts animals lives

We can't live without animals

Harms our world

Most people think the gas disappears. But the gas could stay for decades moving

# Wasting water

## BLUEDOT CLIMATE QUICK TIPS

### Tap Out On Wasted Water

The average faucet runs two gallons of water per minute. During your two minutes twice a day of brushing your teeth, this could mean four gallons of water down the drain. Turn off the tap while you brush your teeth to reduce wasting water.

# How to stop wasting water

.nagpur

**Do**

Turning off the tap  
while brushing teeth

**Don't**

Leaving the tap running  
while brushing teeth

# Wasting Paper/Trees

# How to stop wasting paper

**NO.**

**YES.**

- Recycle
- Not trash

# How to stop wasting paper

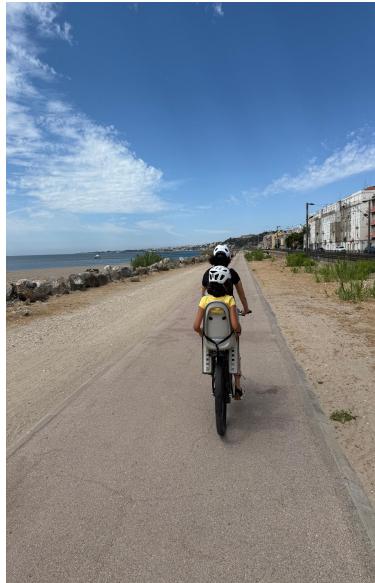

- Reuse toilet paper rolls
- Reuse paper towel rolls
- Make things out of them

# A little change turns into a big change

- You can just do something little
- After you do something little you can go up and up with steps
- Then it will be harder
- And bigger challenges will come up
- Give speeches and write about it
- Never give up
- And of course always be on the bright side

**ALWAYS HAVE FUN!!!!**
